REPLY UNDER 37 CFR § 1.111

Dear Sir:

I. Status of the application

In the Office Action mailed December 15, 2004, Figures 1-5 are objected to, and claims 1-82 are rejected under 35 USC 102(a) as being anticipated by Allred et al. In addition paragraph 3 of the Office Action advises Applicant of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made.

II. Objection to Figures 1-5

Applicants submit herewith replacement drawing sheets for Figures 1-5 that are believed to be in compliance with 37 CFR 1.121(d). In particular, textual labels have been added to Figures 1-5 that characterize the components identified by reference numerals, in accordance with the specific objection raised in the Office Action. The amendments to Figures 1-5 adding the labels are supported in the specification at least at pages 14, 16-23, and 25; and in Figs. 1-5 as originally filed. No new matter is introduced by these amendments.

Applicants believe that this objection is now overcome, and respectfully request that the objection be withdrawn at this time.
